

## CSE486 (Sec-1)

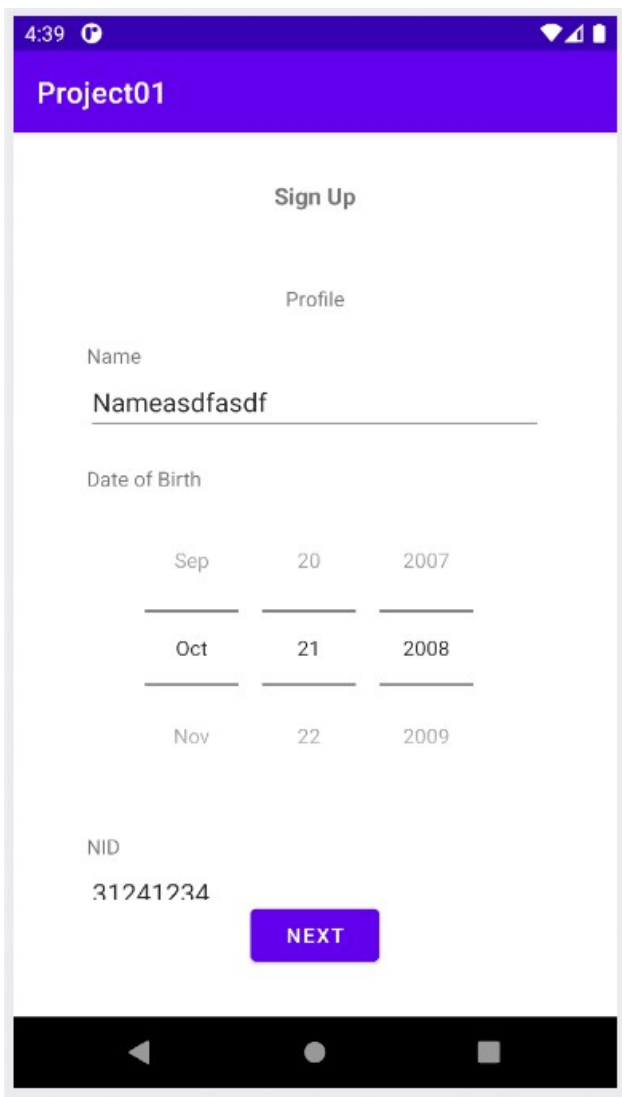

### Assignment-1 Report

Name: Leyon Ibn Kamal

ID: 1811050042

This quiz/assignment was for completing the sign-up activity.

I have implemented the sign-up form by using a ScrollView which contains a LinearLayout which contains multiple LinearLayouts that are used as separate pages. Those LinearLayouts are shown one at a time by changing the visibility to 'visible' or 'gone'. A button is placed to allow the pages to change to the next one, and then in final page the next button turns into submit button and when that is clicked the data is sent for submission, but for the purposes of the project I just used a Toast message.
